

Jayhind Yadav

+91 727-584-1548 | jayhinddv@gmail.com | Punjabi Bagh, Delhi

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 4+ years of experience designing and delivering scalable, high-performance web applications using Node.js and React.js. Strong expertise in backend systems, distributed architectures, REST APIs, and real-time processing. Proven track record of improving performance by 30%+ and handling 100K+ transactions. Skilled in AWS, Docker, Redis, and asynchronous job processing systems.

KEY ACHIEVEMENTS

- Improved database performance by 30%+ through query optimization and indexing strategies
- Engineered systems capable of handling 100K+ transactions with high availability
- Reduced development time by 15% by contributing to scalable architecture design
- Delivered 5+ production-grade full-stack applications across multiple domains
- Implemented asynchronous processing pipelines improving reliability and fault tolerance

TECHNICAL SKILLS

Languages & Frameworks: Node.js, Express.js, React.js, .NET Core

Databases: PostgreSQL, MongoDB, SQL Server

Cloud & DevOps: AWS, Docker

Caching & Queues: Redis, BullMQ

Tools: REST APIs, Webhooks, Git, Twilio, Brevo, Gupshup

Core Concepts: System Design, Distributed Systems, API Development, Performance Optimization

PROFESSIONAL EXPERIENCE

- VI Exports Pvt. Ltd.** Dec 2024 – Present
Software Engineer
Delhi, India
 - Architected scalable full-stack applications using Node.js, React.js, and PostgreSQL
 - Designed and developed high-performance REST APIs handling large-scale concurrent traffic
 - Optimized PostgreSQL queries improving system performance by 30%+
 - Implemented webhook-based real-time workflows
 - Built multi-channel communication systems integrating Twilio, Brevo, and Gupshup
 - Developed asynchronous job pipelines using BullMQ and Redis for reliability
 - Containerized and deployed applications using Docker on AWS infrastructure
- DAPS** Oct 2023 – Dec 2024
Software Engineer
Noida, India
 - Analyzed requirements and contributed to scalable system architecture reducing development time by 15%
 - Led development of 3+ full-stack applications using Node.js, React.js, and MongoDB
 - Designed and implemented enterprise-grade REST APIs
 - Optimized SQL Server queries improving data retrieval performance by 20%
- Absolute Dimensions Pvt. Ltd.** Jun 2021 – Jul 2023
Software Engineer
Patna, India
 - Developed scalable MERN stack applications
 - Optimized MySQL databases handling 100K+ transactions efficiently
 - Built responsive and user-friendly interfaces using React.js
 - Delivered high-quality solutions across e-commerce and enterprise platforms

PROJECTS

- **CRM System:** Architected internal CRM platform using Node.js, PostgreSQL, Redis, and BullMQ, enabling workflow automation and real-time communication
- **LINR-Valuation:** Built property valuation system with automated reporting and external API integrations
- **North Eye:** Developed legal advisory platform with secure document exchange and real-time consultation
- **Grata E-Shop:** Designed scalable e-commerce platform with product management, payments, and inventory
- **ARSIM:** Created real-time bidding system with live auction features and notifications
- **Astute:** Built insurance claim management system with API integrations and tracking

EDUCATION

- **KNIT, Sultanpur**
Master of Computer Applications (MCA)
- **SRC, Muzaffarnagar**
Bachelor of Computer Applications (BCA)

SOFT SKILLS

Problem Solving Leadership Team Collaboration Communication Adaptability
